

# Simple ShowRunner Network Using a Wired Router

**STEP 1:** Connect the **Show Computer** and **Clerk Computer** to the same network.

**STEP 2:** In ShowRunner, click **Settings** to set up each computer as shown. Click **Apply Changes**, close and restart ShowRunner.

## Network 123

If your router does not have access to the internet, then you will not be able to send ride rosters via SMS.

**Note:** Network 123 is just an example. Your network name will be different.

**Local Network**

Computer Name: SORTARENASERVER

Network Role: Network Server

Infotainment Control: None

**Network Role: Network Server**

**Local Network**

Computer Name: SORTARENACLIENT

Network Role: Client Only

Infotainment Control: None
